Re: Procurement of HP Server

Dear Sir,

FORE School of Management (FSM) has been established by the Foundation for Organisational Research & Education, a non-profit organisation, with a mission to promote excellence in Consultancy and Management education. FSM is one of the premier Business Schools in India.

The computer centre at FSM is equipped with state-of-the-art branded computer systems interconnected through structured Ethernet based LAN across the institute.

We intend to procure one HP Server that can cater to and sustain about 1000 mailboxes. The mailing solution software that will be used is Zimbra collaborative Suite on Linux platform as per specification given in the annexure.

While reliability of the systems is a prime factor for selection, excellent knowledge of OS and the said application is very much important so as to handle the application smoothly

Therefore, if you are interested in supplying the same, install (including OS) and integrate with the network along with the support as mentioned above, you may please send your offer with detailed configuration / specification in a closed envelope so as to reach the undersigned **on or before 9th July 2011.**

Please quote your offer with three years on-site warranty.

For any further clarification please feel free to contact the undersigned.

(Sunit Datta)

Manager (Systems)
