

FORE-IUFS webinar on Biosecurity and Agriculture

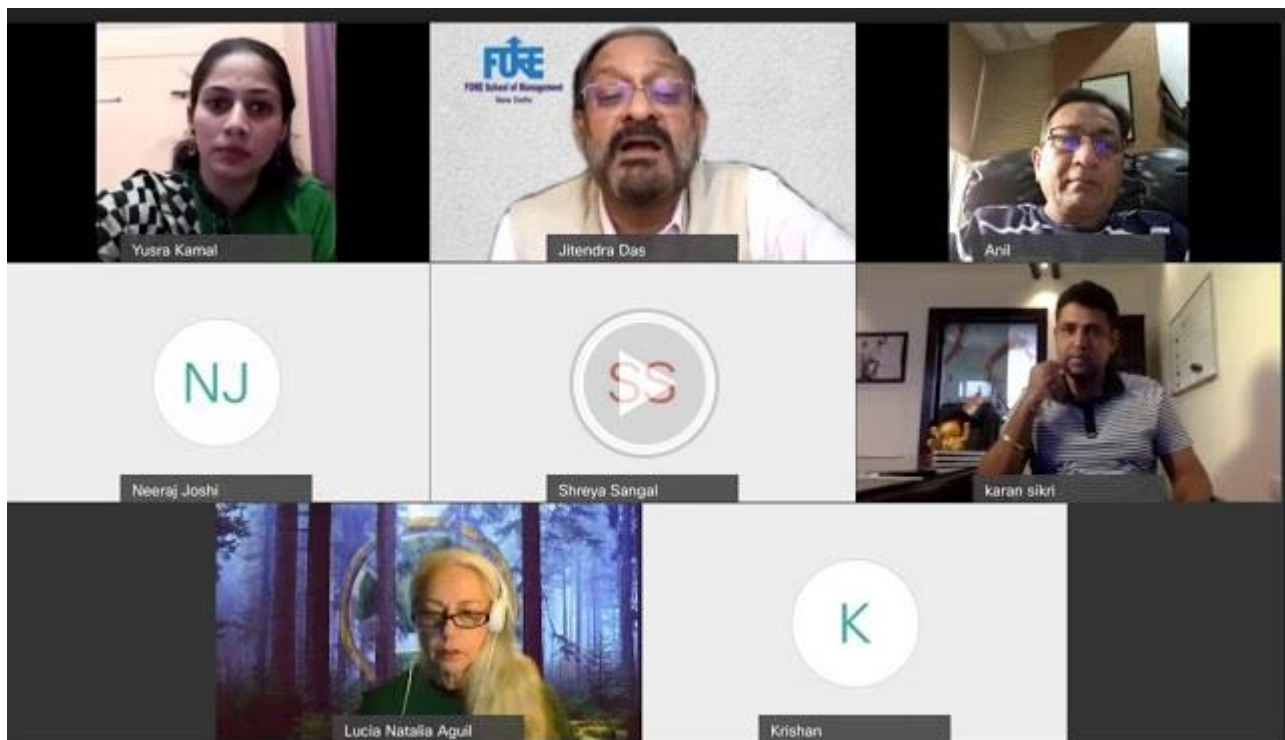

Saturday, October 17, 2020

FORE School of Management, New Delhi and Institute of Urban Farming and Sustainability (IUFS) India have jointly organised webinar on “*Biosecurity and Agriculture*” held on Saturday, October 17, 2020, More than 200 participants have attended the webinar

Dr. Jitendra K. Das, Director, FORE School was the Session Chair for this event. He introduced the eminent speakers prior to the panel discussion, which included:

- Mr Anil Chopra, Founder Director, Wingify, Delhi
- Mr Karan Sikri, CEO, Sikri Farms, Haryana
- Ms Natalia Augilar, Sustainability Consultant, Mexico

Further, he began proceedings by taking delegates through importance of Biosecurity and sustainable farming in the context of preservation of the planet for future generations and having effective checks and balances in place to protect against global warming, pollution, climate change, harmful biological/biochemical substances in pesticides or fertilizers.

Dr. Jitendra K Das, speaking in the event

The delegates have exchanged their views on following major sub-themes of event:

- Biosecurity in Agriculture

- Checklists for Biosecure Agriculture
- Environment resilient Agriculture/ sustainable agriculture.
- Vermicomposting for Biosecure Agriculture.

The webinar brought together a variety of views from academia, farmers, activists, and consultants, an important combination for fighting the sustainability battle.

Dr. Jitendra K. Das concluded the session by consolidating the ideas exchanged on the theme by the prominent panelists of the event.
