

FOURTH EDITION

Financial Accounting for Management

An Analytical Perspective

Ambrish Gupta

The fourth edition of *Financial Accounting for Management: An Analytical Perspective* continues to focus on the analysis and interpretation of financial information for strategic decision making to enable students and managers to formulate business strategies for revenue enhancement, cost economies, efficiency improvements, restructuring of operations, and further expansion or diversification for creating and enhancing the shareholder's value. Though the book has MBA, MFC and MBE students as its primary audience, its practical orientation will be useful to managers in the corporate sector and students of CA, CWA, CS, CFA and CAIIB.

New to This Edition

- ◆ Discussion on convergence with international financial reporting standards. Though implementation of converged Indian standards has been deferred for the time being, key features thereof versus existing standards are explained in the text in various chapters for advance knowledge of students.
- ◆ New vertical format of financial statements introduced with effect from the accounting periods starting 1 April 2011 included. Thus, corporate financial statements in the new format will be available only around June-July 2012. However, a thorough discussion on the new format with the restatement of 2010-11 old format statements of Reliance Industries provided in (new) Appendix 6 for advance knowledge of students.
- ◆ Thorough revision, expansion, updating, enrichment, simplification and aesthetic improvement of the subject matter. All 62 corporate cases have been retained.
- ◆ New pedagogical features introduced and clubbed with the existing ones.

Ambrish Gupta is Senior Professor, Finance and Accounting, at the FORE School of Management, New Delhi. Dr Gupta possesses 28 years of industry and academic experience.

Online Resources:

- ◆ Instructor's Manual ◆ Solutions Manual ◆ PowerPoint Presentations
