Abstract

This working paper focuses on a comparison of banking sectors in the Russian Federation and India. Paper analyses the performance evaluation of banking sectors in the Russian Federation and India on select parameters such as capital adequacy, non-performing loans, return on assets and the return on equity for the period 2013 to 2016. Paper also details the status of deposit insurance in both the countries and the major challenges that the Russian and Indian banks may face in coming times due to volatile global financial environment. Data and literature for this working paper has been sourced from secondary sources only.

Key Words: Banking system, Deposit Insurance, Performance Evaluation
